Hi Emily, Ewelina,

This is a brief summary of the findings from the MFAC Assessment in March, done on 3/30/21.

- 7 pieces total, site condition was optimal regarding trash.
- I removed some trash from adjacent outside areas, 5-6 pieces.
- Dan and Katie from VLT observed and discussed the process with me.
- No unusual conditions were noted at site.

Let me know if you have any questions about the event.

Ron
